- Lower your capital expenditure
- Improve your balance sheet ratios
- Regular even payments make for easy cashflow management
- Lease the latest technology now, upgrade it later.

We are able to provide leasing to the following entities: sole traders, partnerships, limited companies, public sector companies, professional practices, charities, schools and local authorities.

Leasing new business equipment allows you to conserve your cash.

The benefits of business leasing

Freedom Business Leasing allows your business to have the use of the most up to date equipment and technology, without having to make any capital outlay.

This allows you to conserve your working capital and means you can get your equipment when you need it, rather than having to wait and meet budgeting requirements.

100% of the cost of all leased equipment is tax deductible, and there's no depreciation to account for. Instead the even, regular payments for the lease are spread over the life of the goods, making your cashflow easier to manage.

The benefits of business leasing are particularly relevant in today's climate.

We make it easy by being flexible

Because Fico is a small, locally owned business, we have the flexibility to structure a business leasing arrangement to best suit your needs. We make the whole process easy by coming to see you and making the arrangements in person - there are no overseas call centres to deal with!

If you have any questions regarding Fico or your Freedom Business Leasing do not hesitate to contact us or visit our web site.
